PROFESSIONAL SUMMARY

Motivated and academically driven student with a strong foundation in Science (HSC & SSC), aspiring to pursue a Bachelor's degree in Computer Science or Software Engineering. Passionate about technology and problem-solving, with a growing interest in cybersecurity and full-stack web development. Looking forward to internships that offer hands-on experience in building secure, user-centric applications and scalable software systems.

TECHNICAL SKILLS

`</>` Languages: HTML5, CSS3, JavaScript, Python  Tools: VS Code, Git, GitHub

PROJECTS

>_ WafyDev – Developer & Utility Toolbox

Developed a responsive, modern glassmorphic web utility suite using Vanilla JavaScript, optimizing DOM manipulation for seamless real-time tool execution.

Live Demo

Source Code

`</>` Tech Stack: HTML5, CSS3, JavaScript

WafyDocs – Markdown to PDF & Text Converter

Built a lightweight, serverless Markdown converter featuring live preview and syntax highlighting to enhance documentation workflow for content creators and developers.
